Assembly Repair Technician

Well known as a “GREAT PLACE TO WORK” - Just ask our Employees!

FISCHER, a world leader in High Speed Machine Tool Spindles for over 75 years, is continuing to grow. Find out how you can benefit by joining our high-tech team in our friendly and comfortable environment.

We are looking to add **Technicians with an aptitude for precision electro-mechanical assembly.**

Responsibilities of a FISCHER USA Technician:

- ◆ Use work instructions, prints, routings, and established techniques to assemble precision parts and subassemblies to complete product specifications.
- ◆ Inspect or test products throughout the assembly process. Record test results and required data.
- ◆ Identify non-conforming work and initiate corrective action when needed.
- ◆ Utilize manual machine shop equipment to finish or bring assemblies, parts, or spindles within tolerance.
- ◆ Dismantle and analyze repair products for non-conforming parts and quoting of service orders.

Experience and Skills required:

- ◆ Experience or training on building or repairing electro-mechanical devices (auto, motorcycle, etc.)
- ◆ Excellent mechanical aptitude and ability to read and understand complex blueprints & schematics.
- ◆ Pride in producing to a high standard of quality.
- ◆ Ability to comprehend complex mechanics and analyze technical problems.
- ◆ Good written and oral communications ability and proficient in use of basic MS Office software.

Benefits include:

An outstanding package of Health, Dental, Vision, Health Savings Account, Life & Disability Insurance, 401K, Vacation, Holidays, Profit Sharing, Tuition and Fitness Club Reimbursement Programs, and a 100% climate controlled facility.
