

FISCHER USA, INC.

The family run FISCHER Spindle Group, is a world leader in precise, fast and powerful rotation. We are a technology leader in precision spindle construction, milling head production and the construction of air compressors for fuel cell technology. At present, we have five worldwide locations. We are a partner of the leading machine builders and serve markets across the globe. In the United States, we employ around 70 people who ensure customer satisfaction through successful, innovative products and our outstanding service.

QUALITY MANAGER (WRITE YOUR OWN PLAYBOOK!)

FISCHER USA, INC.

YOUR MAIN TASKS

FISCHER USA – Quality Manager

Are you a seasoned Quality Manager looking for a dynamic role in a cutting-edge manufacturing environment? FISCHER USA is seeking a highly motivated individual to lead our Quality Department and drive continuous improvement initiatives. As the Quality Manager, you will play a pivotal role in maintaining and enhancing our commitment to delivering top-notch quality products. If you are passionate about quality, process improvement, and ensuring compliance with ISO 9001 standards, we want to hear from you!

Job Function:

- Coordinate and Prioritize: Manage and prioritize all activities within the quality department to ensure seamless material flow and support production efficiency.
- Communication and Problem-Solving: Demonstrate strong communication and problem-solving skills by reporting deviations to relevant supervisors and team members. Utilize Quality Notification System for efficient communication and resolution.
- Continuous Improvement: Identify and implement areas for continuous improvement within the quality department and Quality Management System. Drive corrective actions through 8D and 4D processes.
- ISO 9001 Compliance: Lead efforts to develop, implement, and maintain ISO9001 quality systems. Conduct internal audits to prepare for external audits and drive continuous improvement.
- Data Collection and Storage: Develop and support systems for data collection and storage that contribute to the digital twin of a finished product.
- Gauge Calibration and Maintenance: Oversee effective gauge calibration and maintenance across the organization. Control costs through efficient utilization of internal and external resources.
- Collaboration: Work closely with Manufacturing Engineering, Design Engineering, and Production Supervisors to troubleshoot issues on the production floor.
- Supplier Quality: Ensure suppliers are informed of non-conformance and collaborate to achieve the required quality standards.
- Customer Audits: Represent FISCHER USA in customer audits and coordinate audits finding responses.
- Backup Role: Act as a backup for all positions reporting directly to you, including processing outside service purchase orders, CMM programming and operation, FORM-Measuring machine, shop floor support, and gauge calibration.
- Safety Focus: Support safe working practices across the organization, prioritizing personnel safety as the number one goal.

YOUR PROFILE

Mandated Qualification Requirements:

- Experience: 5 years or more in a quality role, with 1-3 years in a supervisory leadership role.
- Technical Knowledge: Proficient in gauge R&R studies, calibration, statistical analysis of measurement data, and working within an ISO 9001 quality system.
- GD&T Expertise: Working knowledge of GD&T and experience in inspecting parts using CMM and traditional measuring methods.

Education:

- Bachelor's degree or equivalent (preferred).

Other Requirements:

- Good oral and written communication skills in English (German proficiency is a plus).
- Excellent manual dexterity, high mechanical aptitude, ability to read complex blueprints, and familiarity with inspection and measuring techniques.
- Ability to troubleshoot and repair technical problems and collaborate effectively in a team environment.

If you are ready to take on this exciting opportunity and contribute to the success of FISCHER USA, apply now! Be a part of a team that values quality, innovation, and continuous improvement.

Note: pay will be based on level of experience and skillset.

WHY SHOULD YOU BECOME PART OF THE FISCHER GROUP?

FISCHER USA is a customer focused market leader of innovative service and design solutions for machine tools in the field of High Speed Spindle [HSS] systems. We are passionate about our work, inspired by the impact it has on our business and our customers.
