### **Peter Stähli becomes new Vice Chairman of the Board of Directors of FISCHER Spindle Group AG**

FISCHER Spindle Group AG is pleased to welcome Peter Stähli as the new Vice Chairman of the Board of Directors.

The experienced entrepreneur and strategy expert brings in-depth knowledge from his professional career as well as valuable experience from numerous board mandates such as Bühler, Kilchenmann and Bernexpo.

As founder and former CEO of the Swiss Economic Forum (SEF), Peter Stähli has had a lasting impact on the Swiss economy. With over 15 years of experience as an expert for the Swiss Economic Award and the evaluation of over 1,500 start-up business plans, he is a recognized promoter of innovation and entrepreneurship.

FISCHER Spindle Group AG is convinced that the trained electrical engineer Peter Stähli will decisively drive the future development of the company with his strategic expertise and visionary thinking. The Bernese embodies the values of the FISCHER Group and always puts people at the centre of everything they do. In 2027, he will take over the role of Chairman of the Board of Directors of the FISCHER Group from Daniel Schmid.

Welcome to FISCHER, Peter!

#### **ABOUT THE FISCHER GROUP**

THE PERFECT ROTATION. PRECISION. SPEED. POWER.

The family-run FISCHER Spindle Group AG, headquartered in Herzogenbuchsee, is one of the world's leading companies for precision spindles, milling heads, compressors for fuel cells and heat pumps. Innovation is part of FISCHER's DNA – both through its own developments and through cooperation with start-ups within the Group. People are at the centre of the FISCHER culture, achieving top performance with modesty and humility. With six locations worldwide, over 450 employees and over 85 years of experience, FISCHER delivers tailor-made solutions that impress with quality, innovation and excellent service.
