CNC Machinist - 3rd Shift

For over 75 years, FISCHER USA has provided its customers with a variety of spindle products and services to meet their manufacturing needs. Our employees' hard work is what continues to make us successful. FUSA is looking for someone who is experienced in a job shop environment, highly attentive to detail, accuracy and results driven.

What you will do:

- ◆ Set-up and operate CNC machines, such as Mazak CNC Milling and Turning Centers for the production of low volume, high precision components.
- ◆ Utilize prints, drawings, shop math, metric measurements, GD&T to interpret data and meet the required dimensions and tolerances of our product.
- ◆ Utilize inspection equipment, including gages, micrometers, calipers, air gages, gage blocks, form measuring, or CMM devices, to ensure parts are produced with the specified tolerances.

What it takes to be successful:

- ◆ Vocational or apprenticeship training in machining (turning, milling, grinding) and/or experience with Mill/Turn equipment such as Mazak, Haas, and Hardinge.
- ◆ Working knowledge of shop math and blueprint reading (including GD&T) as well as metric measuring methods and techniques.
- ◆ Ability to problem solve using critical thinking skills.
- ◆ 3 to 5 years' experience in setup and operation of precision CNC machine tools is preferred.
- ◆ Accountable for accuracy and quality workmanship.

FISCHER USA offers an outstanding benefits package including Health, Dental, Vision, Health Savings Account, Life & Disability Insurance, 401K, Vacation, Holidays, Profit Sharing, as well as Tuition and Fitness Club Reimbursement Programs and more.
