## Machinist Apprenticeship

*At FISCHER USA, our Apprentices are exposed to a variety of manufacturing processes through hands-on learning opportunities and employer sponsored education.*

### **The Benefits of a FISCHER USA Apprenticeship:**

#### **Hands-on Career Training**

You receive practical on-the-job training working alongside and experienced machinist to learn aspects of machining and servicing equipment, programming and operation as well as inspection equipment and techniques.

#### **100% of Educational Costs Sponsored by FUSA**

You'll get hands-on training and can earn college credit towards your Machinist Apprenticeship.

#### **A Paycheck**

From day one, you will earn a paycheck guaranteed to increase over time as you learn the skills of your new career. You are paid for hours attended at school in addition to hours worked.

#### **Access to full-time benefits**

Full-Time Machinist Apprentices are eligible for employee benefits such as health insurance, 401K employer match, vacation-time, paid holidays and more.

#### **A Career**

Once you complete your apprenticeship, you will be on your way to a successful long-term career with competitive wages, and little or no educational debt.

#### **National Industry Certification**

Upon completion of your apprenticeship, you'll get a nationally recognized completion certification and can take it anywhere in the U.S.

### **Learning Opportunities:**

- Under direct supervision, assist with loading and unloading operation and set-up activities of a Computer Numeric Controlled (CNC) machine(s) or manual manufacturing equipment.
- Learn how to read CNC programs, make necessary offsets, and machine parts to close tolerances.
- Remove sharp corners or edges from parts.
- Learn to read and comprehend blueprints and use Geometric Dimensioning & Tolerancing.
- Use of addition, subtraction, multiplication and the division of numbers including decimals and fractions.
- Responsible for inspection of his/her own work.

### **Who we are.**

FISCHER USA is a customer focused market leader of innovative service and design solutions for machine tools in the field of High Speed Spindle [HSS] systems. We are passionate about our work, inspired by the impact it has on our business and our customers.
